### ABOUT

Pursuing Bachelor of Technology in Computer Science and Engineering from LPU, currently focusing on learning various of Data Structures and algorithms in C++ and Python. I believe my skills leaves nothing to be desired and the University environment is always pushing me to polish them more, which is a good thing. I am a person who is very hard working and knows how to manage time.

### PROJECTS

#### E-COMMERCE WEBSITE

2022

It's a responsive website created with help of HTML, CSS and JavaScript named as "QUICK SHOP". It has a user friendly Interface which allows users to navigate from one page to another easily.

#### PYTHON PROJECT

2022

It's a program for finding the nth prime as well as palindrome number. In this program I used algorithms and data structures which decrease the run time and uses less storage
